

Maryam Behfar M.D

I. Personal Data

Birth date: 1976/09/20
Hometown: Babol
Nationality: Iranian
Marital status: Married
Phone: +9802161472140
Email address: behfarm@sina.tums.ac.ir
Current position: Associate professor of Pediatric Hematologist/Oncologist and Stem cell transplantation, Tehran University of Medical Sciences Deputy of Research, Pediatric Cell and Gene Therapy Research center
Work address: Gene, cell and tissue institute
Pediatric Cell Therapy Research Center
Pediatric Stem Cell Transplant Department
Children's Medical Center
Qarib St, Keshavarz Blvd, Tehran 14194, Iran

II. Academic Appointments

2022-present	Associate Professor Tehran University of Medical Sciences Tehran University of Medical Sciences Pediatric Stem Cell Transplant Department Children's Medical Center
2019- 2022	Assistant Professor Tehran University of Medical Sciences Tehran University of Medical Sciences Pediatric Stem Cell Transplant Department Children's Medical Center
20014- 2019	Assistant Professor Tehran University of Medical Sciences

III. Education

2015- 2019	Pediatrics hematology & oncology, Fellowship Tehran University of Medical Sciences Tehran, Iran
2006- 2009	Pediatrics, Residency Tehran University of Medical Sciences Tehran, Iran
1994- 2002	M.D. Faculty of Medicine, Fatemieh Qom University of Medical Sciences Qom, Iran

IV. Board Certification

2019	Iranian Board of Pediatric Hematology/Oncology
2002	Iranian Board of Pediatric

V. Memberships

2017-Present	Editorial Board, Hematology/Oncology and Stem Cell Therapy journal (The official journal of Asia-Pacific Blood & Marrow Transplantation)
2016-Present	Reviewer of Pediatric transplantation
2013-Present	Reviewer of Acta Medica Iranica.
2013-Present	Reviewer of The Journal of Tehran University Heart center.
2013-Present	Reviewer of International Journal of Hematology-Oncology and Stem Cell Research.
2010-Present	Member of the Iranian Society of Hematopoietic Stem Cell Transplantation (ISHSCT).

VI. Research Projects (ongoing and finished):

1. The Effects of plerixafor on the amount of CD34+ mobilization in HSCT Eligible Neuroblastoma patients
2. Title : Evaluation of the association between human leukocyte antigen (HLA) and acute lymphoblastic leukemia (ALL) in patients referred to the children medical center from 2015 to 2022

3. Comparison of the outcome of pediatric hematopoietic stem cell transplantation with and without one HLA locus incompatibility from 2015 to 2022 in children medical center
4. The comparison of immune reconstitution after hematopoietic stem cell transplantation between HLA identical sibling and Haploidentical family donor transplant pediatric patients with acute leukemia
5. Frequency of Acute Kidney Injury and comparison of urinary NGAL and serum creatinine in the diagnosis of Acute Kidney injury after hematopoietic stem cell transplantation in Pediatric Medical Center from 2022 to 2023
6. Comparison of complications and prognosis of allogeneic hematopoietic stem cell transplantation during and before COVID-19 pandemic (September 2016 to March 2017) in Pediatric Medical Center Hospital
7. Efficacy evaluation of photopheresis by cryopreservation in steroid-resistant graft versus host disease in pediatric patients
8. Survival and incidence of GVHD in children receiving T globulin 25 as an immunosuppressant during hematopoietic stem cell transplantation
9. Construction of the cord blood allogeneic platelet gummi candy and investigation its effect on the Oral cavity resistant GVHD wounds: A pilot clinical study
10. Safety assessment of the CD19 CAR T cell on the B cell acute lymphoblastic leukemia in pediatric patients
11. Determination of the safety of mesenchymal allogeneic stem cells in cystic fibrosis patients
12. Determining optimum operating conditions of rotational blood component separator
13. Iranian Fanconi Anemia Registration
14. Evaluation of Safety and Effectiveness of Allogeneic Adipose Derived Mesenchymal Stem Cells in Bronchiolitis Obliterans Syndrome (BOS) after Allogeneic Hematopoietic Stem Cell Transplantation
15. Safety and Effectiveness evaluation of Allogeneic Cord Blood Platelet Gel (CBPG) for the treatment of nonhealing skin ulcers/erosion due to the cutaneous chronic GVHD: A Randomize Clinical Trial (Pilot study)

16. The safety and efficiency evaluation of allogenic Natural Killer cell therapy in relapsed Neuroblastoma pediatric patients post hematopoietic stem cell transplantation: Phase I clinical study
17. The effect of Peripheral blood NK Cell–activated with Exosomes in a mouse model of Wilms tumor
18. Posterior reversible encephalopathy syndrome after hematopoietic stem cell transplantation in pediatrics patients
19. Long-term outcomes of fludarabine, melphalan and antithymocyte globulin as reduced-intensity conditioning regimen for hematopoietic stem cell transplantation in children with primary immunodeficiency disorders
20. Hematopoietic stem cell transplantation among Diamond Blackfan Anemia patients applying Busulfan plus Cyclophosphamide ± rATG
21. The differentiation of the umbilical cord blood hematopoietic stem cell into Natural Killer cells and the comparison of its effect on the Wilms tumor with peripheral blood NK cells in the preclinical model.
22. Assessment of health in hematopoietic stem cell donors who were under 15 years when they have received rh G-CSF.
23. Evaluation of diagnostic power of uroflowmetry in early diagnosis of hemorrhagic cystitis in patients who undergo hematopoietic stem cell transplantation.
24. Effect of stem cell transplantation on the pituitary-hypothalamus in patients with major thalassemia.
25. Comparison of bone density in hematopoietic stem cell transplanted β-thalassemic patients.
26. Elastography assessment of liver iron overload in patients with thalassemia major after stem-cell transplantation.
27. Evaluation of benefit and side effect of myeloablative regimen for the treatment of malignant Osteopetrosis.
28. Evaluation of benefit and side effect of myeloablative regimen for the treatment of malignant Mucopolysaccharidosis (MPS).
29. MRI T2* assessment of liver and heart iron overload in patients with thalassemia major after stem cell transplantation.

30. Evaluation of benefits and side effects of ^{131}I -MIBG in combination with myeloablative chemotherapy and autologous bone marrow transplantation for the treatment of high-risk neuroblastoma.

31. Correlation between hematologic findings (CBC & electrophoresis) and genotype in β -thalassemia trait in Iran.
